

H/Dr. Bashir A. Malik
D.Biochemistry (London)
D.Hom (London)
F.BFS (London)
Ex-Member LIGA

H/Dr. Bashir Ahmed Malik is a full time practicing homoeopath in Lahore, Pakistan - with over 34 years of focused academic and working field experience in Homoeopathy. Dr. Malik is a Fellow of BFS, an ex-member of LIGA, Vienna, Austria. He was originally a registered Homoeopathic Practitioner with the National Council for Homoeopathy, Pakistan - and is now registered and licensed by the Punjab Health Care Commission, Pakistan. He also holds diplomas in Homoeopathy and Biochemistry from Brantridge Forest School, UK.

In this opus, Dr. Malik addresses the gap in homoeopathic literature to allay the objections of the critics of homoeopathy.

"Quantum Mechanics of Homoeopathy
Homoeopathic Medicine,
A Depiction of Quantum Pharmacology"
By H/Dr. Bashir A. Malik
Review

Date: 2.4.17

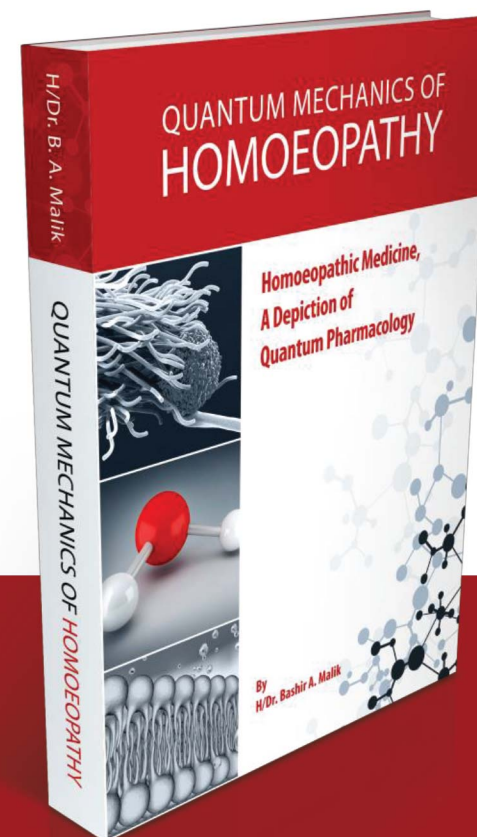

Homoeopathy medicines - a treatment of a large number of diseases is now an established practice. These medicines - a treatment have originated from Germany - and they are now legally practiced - and used. In Germany two well known factories, viz. Schaefer & Richter - many are producing these medicines on a professional basis. These factories are excellent - and are run on scientific basis. When I was in Berlin at the famous Technological University, I was aware of the fact in Germany medical officials recognize Homoeopathic treatment. My dear friend, Dr. Abdul Jabbar Khan studied in Berlin - and always used prescribed Homoeopathic medicines together with the conventional allopathic medicines.

The above mentioned book by H/Dr. Bashir A. Malik is a treasure of knowledge on Homoeopathic medicines - a treatment. The main advantage of this medicine is that it has no side-effects.

I am sure that people (doctors also) will find this book very useful. My best wishes for Dr. Malik for undertaking such a noble work.

With profound regards.

Dr. A. Q. Khan

**A BOOK ON
LONG DESIRED
EXPLANATIONS ABOUT
SCIENCE-BASED
HOMOEOPATHY**

**By
H/Dr. Bashir A. Malik**

TABLE OF CONTENTS

1. Credentials by Dr. A. Q. Khan	1
2. A Statement by Dr. Rafi Ahmad	2
3. Book Review by Dr. Maryam Tarar	4
4. Author's Synoptic Scientific Introductory Note	7
5. Prelude	22
6. Preface	31
7. Introduction	37
8. Essence of Scientific Homoeopathy	44
9. The Energy Transformational Scenario	64
10. Electrical Potential in Human Body	70
11. Quantum Pharmacology, the Homoeopathy and Its Scientific Complexity	76
12. How Homoeopathic Medicine Works	94
13. Classical Biochemical Engineering Application	100
14. BBC Horizon "Homoeopathy– The Test" and NHMRC of Australia "A Scientific Rebuttal"	105
15. The Complexity of Homoeopathic Scientific Interpretations	127
16. Mechanistic View into how Homoeopathic Medicine Functions	157
17. The Role of Hydrogen Ion "H" in the Retrograde Biological Morphology of Human Body	162

TABLE OF CONTENTS

18. The Molecular Environment and Biological Ubiquity of Water	169
19. Introduction to Concept of Bioelectricity In Human Body By Samuel Hahnemann	188
20. The Stem Cell Concept	211
21. Homoeo-Patho-Physiology	218
22. Mechanics of Restoration of Infarcted Tissue of the Heart	236
23. Foundation for Source of Energy, Electrical Potential, (Bioelectricity) Within Human Body	238
24. Efficacy of Classical Prescription in Homoeopathic Practice Related to MOST Complex Cases of Advanced Medical Scientific Era	242
25. Illustrating My Method of Prescribing	244
26. Cured Case Histories (Irreversible/Incurables)	255
27. Management of Current/Under- Treatment/ Positive Response Individual Cases	358
28. Initiation of Mechanics of Disease	389
29. A Mechanistic View into How Homoeopathic Medicine Regulates Latent Functions In Human Physiology	393
30. Genetic Anomalies	397

BOOK REVIEW BY

Dr. Muhammad Bilal Sadiq:
Pharm D (Pharmacy)
Ph.D. (Food and Bioprocess Technology)
Assistant Professor, Dept. of Biological Sciences
Forman Christian College / University, Lahore, Pakistan

"The title of the book is self-explanatory and very interesting. Being a pharmacist, food scientist and microbiologist, I find the book very interesting, as it attracts the attention towards an innovative field application of pharmacy "Quantum Pharmacology". I have always believed in allopathic medicine system and never get any fascination for Homeopathy, but after I went through this book, I came across the in-depth knowledge of the author on homeopathy and its applications with case studies. The author proved by treating the complicated cases, where the sophisticated available therapies failed.

The author has developed various postulates regarding the dosing schemes, influences of meal and patient health conditions on treatment strategies. These postulates can be future research direction for the upcoming medical practitioners and scientists.

The working mechanisms of homeopathic medicines are nicely explained with scientific elaborations. The role of electrical potential within human body and its importance in homeostasis are very innovative and nicely explained.

Unlike the orthodox books, this book is based on practical applications and the author presented personally treated cases that were declared to be incurable/irreversible. Therefore, in my opinion this book should be in curriculum of practitioners, so that they can get benefit from the experience and novel applications of homeopathy. I must congratulate the author; Dr. Bashir A. Malik for compiling the comprehensive and innovative ideas by developing a practical link between homeopathy and pharmacology."
